Steve – We didn't have access to a couple of locations from last year and we are hoping to extend the period of the access agreement for 5 years – hence the reason that we are requesting access from Hennis. If the topic comes up in the next couple of weeks in your dealings with Mr. Hennis, Liz and I would appreciate any assistance you can give us in persuading Mr. Hennis to sign and return the access agreement as soon as possible. Thank you.

**Subject:** EPA Request for Access

Mr. Hennis – Attached to this email is EPA's request for access to a number of properties in the Cement Creek drainage above Silverton Colorado owned by you, Salem Minerals, Inc. or San Juan Corporation. Included is a cover letter explaining our request for access, the Consent for Access form and the list of locations and associated properties/mine claims that we are requesting access for sampling. We would request that you sign and return the Consent for Access by Friday, May 1, 2015.

If you have any questions, please feel free to contact either myself or Liz Fagen. Liz's phone # is 303-312-6095. My contact information is listed below my signature block.
